# GENERATIONS OF EXCELLENCE

*A family legacy since 1878. Proudly made in the U.S.A.*

For five generations, the Serratelli family has been in the business of hats. My great-great grandfather arrived from Italy more than 100 years ago with hardly a cent to his name. He dreamed of something purely American: A father-and-son company that could stand the test of time.

When he and my great-grandfather started P. Serratelli & Son, they quickly became the experts in sourcing the raw materials that created the finest fur and felt hats.

Today, we create Western hats the same way they were made more than a century ago. We are so confident in our heritage that we boldly place our name inside every hat we make. We do it by hand, shaping, cutting, stamping and finishing in the same workshop that my family built, embodying more than a century of heritage and experience.

It is this single, unwavering commitment to tradition and excellence that inspires every artisan with us today. More than 50 pairs of hands prepare each hat before it leaves our doors, and I am proud to say that many of those artisans have worked with us for more than a decade. Their longevity is the result of a positive workplace, inviting

them to pour their years of expertise into every single hat we craft for you. Pleasure in the job puts perfection in the work.

Personally, my experience in the hat industry has been a remarkable journey—working for my father, I learned how to bring materials together to create the finest fur and felt hats in the world. My joy lies in fashioning hats that will endure, hats of such exceptional quality that they can be handed down to the next generation.

Serratelli Hat Company is a generational company crafting generational products. I look forward to handing down this company, with the same work ethic and the entrepreneurial spirit, to my family.

As the fifth generation prepares to carry on our proud traditions and build on the foundations of our forefathers, we extend our commitment to the simple truths of business, treat people well and make something great.

Thank you,

*Dean Serratelli*

ROCKER STEINER

# THE ROCKER STEINER — COLLECTION —

The Rocker Steiner Collection is a unique collaboration that represents the convergence of two family legacies: Serratelli's 150 years of American cowboy hat-making tradition and the Steiner's three generations in the rodeo arena. We honor bloodlines as much as craft, merging heritage with the uncompromising standards both families have upheld for generations.

At its core, the crown is shaped by lineage itself. Bobby Steiner-Rocker's grandfather and a rodeo legend-hand creased each hat using the same shape passed down to his son, Sid, and, now, Rocker. His hand-shaped hats became the exact molds used for this collection, preserving a silhouette carried from generation to generation.

Complementing the crown is a custom buckle set designed in collaboration with jeweler Nick Cunningham. The set is inspired by Rocker's spurs that were gifted by rodeo icon Larry Mahan to 9-time world champion Ty Murray before making their way to Rocker. The buckle incorporates elements of the rowels and spur design across the buckle, keeper, and tip, anchoring the collection in the tools and legends that shape the sport.

Inside the hat, Rocker's signature red is precisely matched in a goat-leather sweatband. It is then stamped with gold foil and Rocker's autograph and then stitched in the Serratelli gold thread. The liner features a custom monogram pattern and an illustrated portrait of Rocker in the arena, designed exclusively for this line.

The Rocker Steiner Collection propels the heritage of both families into the future—blending timeless craftsmanship with a vibrant, modern spirit to honor the generations who shaped these legacies and the ones redefining what's possible.
